

# CERTIFICATE OF STATE REVIEW BOARD

We, the members of the State of Alaska State Review Board, have reviewed the materials from the Regional Counting Boards to ensure that the number of ballots cast, counted, and shown on the election results produced by the state's ballot tabulation system equals the number of actual voters and that the results are accurate.

Additionally, we conducted a hand-count verification of one randomly drawn house district.

As members of the State of Alaska State Review Board, we do hereby certify we reviewed the votes cast in the June 11, 2022, Special Primary Election in accordance with Alaska Statute 15.15.430.

We further certify that the results of this review are detailed in the 2022 Special Primary Election Official Results and the Official Statement of Votes Cast, as they appear on the Division of Elections website and filed and retained with the Division of Elections.

# OATH OF STATE REVIEW BOARD

I swear upon oath that I have honestly and faithfully performed my duty as a member of the State Review Board according to the provision of law and certify that these are the official results.
